

The Repentance of God—Exodus 32-33
Greg Stiekes, Pastor

Despite their heinous sin of the golden calf, God *repented* of the terrible judgment He intended for Israel and let them live. The repentance of God is an enigmatic yet wonderful aspect of God's Personality that we will probe by making *three observations*:

Last Week...

1. God's *repentance* does not contradict His nature or His attributes.

God is free to "change His mind" about a previous intention without any contradiction with regard to His immutability, omniscience, or decree.

Today...

2. God's *repentance* demonstrates His compassion and forgiveness.

3. God's *repentance* may be invoked by earnest prayer.
