

The Blood of Christ – Hebrews 9:15-22

Pastor Greg Stiekes

The first half of Hebrews 9 draws a contrast between the blood of bulls and goats brought by priests into the earthly tabernacle, and the work of Christ who entered the heavenly tabernacle with His own blood, securing “eternal redemption.” But what is significant about the “blood” of Christ? Hebrews 9:15-22 offers us *three eternal benefits* that the blood of Christ accomplished for believers:

1. Through His blood, Jesus became the “mediator of the new covenant.”
2. Through His blood, Jesus secured the “eternal inheritance.”
3. Through His blood, Jesus redeemed us from the “transgressions.”
