

Title: Using Your Brain - Romans 10:1-3
Greg Stiekes, Sunday PM, July 29

There is much zeal for God in the contemporary world. Yet the Bible warns that there will be many who claim to embrace God who are not really of God. They have a "zeal" which is not according to knowledge. God desires His children to have a zealousness that is informed. The Christian walk requires the believer to use his or her brains in at least three areas:

1. Christian growth.

2. Christian worship.

3. Christian guidance.
